To the Public.

The Sentinel, having double the circulation in our city, and more than twice over, of any other paper here, readers it for the cheapest, and most desirable news, in all the classes of advertisements.

Every business man who occupies his interest, will be induced by the columns of the Sentinel, especially when he can do so at the same price charged by other papers, and secure more than double the information.

This is no boast, but every word true.

### News Digest.

The official returns continue of the population of the State of Ohio, show an increase of only 30,000 since 1850.

The steamship Australian, with foreign advice of the 24th inst., has arrived. The news is unimportant. The Liverpool flour market has advanced \$1, and wheat 12¢.

A commission merchant, CHAS. McDougal, of the firm of WARD & McDougal, of Cincinnati, despatched on Friday evening with some \$35,000 long-billing to the firm.

A heavy thunder storm passed over Springfield, Ill., Friday night, doing extensive damage.

The election in North Carolina has resulted in favor of the Democrats by a greatly reduced majority.

### Indiana.

A gentleman who has traveled extensively through Indiana, says it will give Lincoln and Hamlin from ten to fifteen thousand majority.

The DOUGLAS men are becoming alarmed at the inroads made into their ranks by the BRECKINRIDGE men, who claim a majority in the south half of the State, while BRECKINRIDGE and Lane are very popular.

Six more papers, which had been counted for DOUGLAS, have come out for BRECKINRIDGE.

The anti-slavery men in the Douglas ranks are going over to LINCOLN, while the pro-slavery men are going over to BRECKINRIDGE.

**DEMOCRATIC ECONOMY.**—The present administration, when it retires from office, will leave to the people a legacy of \$30,000,000 of National Debt; independent of the \$29,000,000 which it found in the treasury, and which it has since squandered.

It came into power preaching "economy" and "retrenchment"; yet it has been the most extravagant and corrupt administration that ever existed. During its term it has been spending at the rate of twenty millions a year more than its receipts from revenues. It would not take many years of such financial policy to saddle the United States, like England, with an enormous, immovable and burdensome National debt.

BUCHANAN ATTACKED FIELDNER'S administration as expensive and extravagant, because it spent \$50,000,000 per annum, while he himself spent \$70,000,000 per annum, and would have spent more if Congress had allowed it to him.

There have been occasions, heretofore for large expenditures, as in FIELDNER's administration during the Mexican war; but there has been no such excuse during BUCHANAN's term. We have been and are at peace with all the world, with no cause for heavy expenditures; and the extravagance of this administration is therefore all the more unjustifiable.

**THE WATERING PLACES.**—The usual throngs have scarcely been seen at the summer resorts during the present season. Summer has been in earnest; it is true; the heats are sultry and the dog star rages as fiercely as ever, but Saratoga, and Newport, and Niagara and Canada are not crowded with pleasure-seekers. Those spots, so long famous, are indeed not absolutely deserted; they still hold of young and old, and rich and gay, and even quiet and undisturbed visitors, but the great rush of company that made them so brilliant is one of the things that were. A number of causes have combined to produce this effect.

And first, the growing distaste among people to spend time so much in public, at least during the summer. Thousands of the wealthy citizens of New York alone have, within the last few years, purchased country seats, and fled in the season and comfort those said places, with the result that dresses and dances and mirth and gaiety, at the Springs and kindred resorts,—the stamp once borne by those places too, is borne no longer. A visit to Saratoga, or Newport, conveys no distinction; quite as many disagreeable, low bred, even immoral people, may be found there as anywhere else. If you go you must take your chance of finding, or making acquaintances to your liking, and the chance is not altogether a good one.

**CENSUS INDICATIONS.**—New York city has a population of 882,000; and embracing Brooklyn, Williamsburg, and adjoining villages, 500,000.

Cincinnati's foot up about 130,000.

Baltimore can boast of 230,000.

White Philadelphia has 650,000.

The State of Connecticut has 470,000 population, being an increase of about 100,000 since 1850. Nearly one half the increase is due to New Haven and Hartford. New London has gained 33 1/2 per cent. since 1850.

**GEMS FOR LINCOLN.**—As showing the tide in the doubtful counties of Illinois, CANTER VAN VLECK, of McDonough county, a leading lawyer and Douglas democratic politician, who was on the stump for DOUGLAS in 1858, comes out in a letter in favor of LINCOLN. McDonough county gave DOUGLAS 200 majority in 1858.

**THE TRIP OF THE GREAT EASTERN** to Cape May seems to have been very badly managed, according to the report, it was a total. According to the numerous letters from passengers—a dreadful implication. Water, it seems could not be had for any price. No accommodations, no system, no nothing.

There is a political Club in Philadelphia known as the "Continental." They number twenty-three hundred. In '58 they were organized as "Inians-mans," and were all for FIELDNER. Now, they are all for LINCOLN, and are doing the same active work as then.

**THE WISCONSIN FARMER.** for August is unconsciously in its agricultural literature. This excellent home periodical should be in the hands of every farmer in the State. So make it be.

ISSUES OF THE PRESIDENTIAL CONTEST.

Able Address of Hon. John Hickman.

CONCERT HALL CROWDED!

BRILLIANT SCENE!

DEEP INTEREST &amp; ENTHUSIASM!

The Lincoln Feeling Running High.

From the "Philadelphia Enquirer," July 22.

Concert Hall, last evening, was the scene of a most spirited and enthusiastic gathering of the friends of Lincoln.

It was the first meeting of the campaign, which will be marked by a series of campaign meetings, which will be marked with deep interest.

The particular attraction of last night was an exposition of the views of Mr. Lincoln, his principles, his reputation, in Congress from the South and Delaware districts, and his address was a glowing and eloquent exposition of the reasons why he now carries himself under the banner of Lincoln and Hamlin.

There was quite a number of delegations present from the various People's and Republican Clubs, "Wide-Awakes," "Invincibles," &amp;c. The Club marched up Chestnut Street to the meeting in uniform, and the members, torches in hand, marched through the streets in a brilliant appearance, and attracted thousands of spectators. Hundreds of citizens of all parties were also drawn to the hall by the wish to hear Mr. Hickman.

The meeting was called, ordered by Mr. Hickman, who nominated the following gentlemen to offices:

President—John HORN.

Vice-President—John M. Butler, 2d, Henry C. Carey, 3d, John P. Verree, 4th, Robert S. Reed; Charles C. Jackson.

Secretary—Dr. Elias Ward, 2d, Edward N. Hallowell, 3d, Peter Fase, 4th, Thomas Potter, 5th, William Rotch, 6th.

The nominations were enthusiastically ratified.

Mr. Horn, on taking the chair, made some pointed remarks after which Mr. Hickman was introduced, and spoke as follows, being interrupted by outbreaks of applause.

SPEECH OF HON. JOHN HICKMAN.

Mr. Hickman said:

MR. PRESIDENT AND GENTLEMEN:—The intelligent voter will so shape his action as to make it conducive to the success of a principle, rather than the elevation of a man.

It will feel this to be the main intent of the people of the North, and when the objects of our parties are more distinctly marked than in any previous campaign.

It will be my object this evening, to endeavor to exhibit in a distinct light, the division line between the political parties of the day, and to ascertain, if possible, what, in all probability, would be the effect, upon the country, of the election of the respective candidates for the Presidency.

If this were a strict battle between individual men, and I should not trouble you with either remark or suggestion. But as I regard the contest, the determination will soon be made not alone as to your value in the confidence, but as to the destiny of the nation itself.

The policy of our government, is in many respects, undefined. The more serious questions affecting us have been recently topics of discussion, and of inquiry. Our fathers were unable to foresee, during the formation of the Constitution, the greater embarrassments to which the future of the country would be subjected, and consequently no provision was made for such contingencies, which distinguished and divided them, in their deliberations; have lost much of their former consequence, and we seem to be more anxious to ascertain what they should have said, than what they did say. Even those who have been engaged within the last decade have been settled or lost sight of, and we are about to enter into that conflict which is to decide many of that important question.

The South and South-and-southern men, more closely, than any other, have been the most zealous advocates, and apologist of those who have often proven, and discredited us, and required no slight against the pauper products of Europe.

If a change of tariff law were required by the South, the North could not be compelled to accept it, and our Senate would, if not with similitude, and our South would, if not with contempt, be compelled to accept it.

The introduction of the bill, would bring about the incorporation of Congress in their session, and the two major parties, and the minor, and the minor party, would become the most zealous advocates, and apologist of those who have often proven, and discredited us, and required no slight against the pauper products of Europe.

PIMPLES AND SKIN DISEASES

ARE THE RESULT OF IMPURE

BLOOD. The blood becomes thick and clogged.

The skin is not able to cast off the impurities.

It is important to health, that the skin and mucous

membranes be free from pustules and blisters,

which are endeavoring to remove them by

the use of soaps and washes of various kinds.

This is very dangerous and they do not

know what they do. Mothers

who have children afflicted with sores and eruptions

should never dry them up by external applications

for in this way will they drive in the humors and

produce ill health, and even worse than the

original disease. The best way is to

keep the skin clean and healthy.

Judson's Mountain Herb Pills are prepared

expressly for the cure of eruptions of the skin,

and are the best and most effective.

The blood of all eruptions, producing a beautiful,

clear and healthy skin, so much admired by all peo-

ple of taste and refinement.

Judson's Mountain Herb Pills are sold by all  
physicians.
